SUPPLEMENTAL INFORMATION:

I. Background

OSHA recognition of a NRTL signifies that the organization meets the requirements in Section 1910.7 of Title 29, Code of Federal Regulations (29 CFR 1910.7).

Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products properly approved by the NRTL to meet OSHA standards that require testing and certification. OSHA maintains an informational webpage for each NRTL that details its scope of recognition available at

<http://www.osha.gov/dts/otpca/nrtl/index.html>.

OSHA processes applications by a NRTL for renewal of recognition following requirements in Appendix A to 29 CFR 1910.7. OSHA conducts renewals in accordance with the procedures in 29 CFR 1910.7, Appendix A, paragraph II.C. In accordance with

these procedures, NRTLs submit a renewal request to OSHA, not less than nine months or no more than one year, before the expiration date of its current recognition. The submission includes a request for renewal and any additional information the NRTL wishes to submit to demonstrate its continued compliance with the terms of its recognition and 29 CFR 1910.7. If OSHA has not conducted an on-site assessment of the NRTL's headquarters and key sites within the past 18 to 24 months, it will schedule the necessary on-site assessments prior to the expiration date of the NRTL's recognition. Upon review of the submitted material and, as necessary, the successful completion of the on-site assessment, OSHA announces its preliminary decision to grant or deny renewal in the *Federal Register* and solicit comments from the public. OSHA then publishes a final *Federal Register* notice responding to any comments and renewing the NRTL's recognition for a period of five years, or denying the renewal of recognition.

UL initially received OSHA recognition as a NRTL on June 13, 1988, referenced in a *Federal Register* notice dated June 29, 1995 (60 FR 33852). UL's most recent renewal was granted on July 14, 2014, for a five-year period ending on July 14, 2019. UL submitted a timely request for renewal, dated September 4, 2018 (OSHA-2009-0025-0028), and retains its recognition pending OSHA's final decision in this renewal process. The current addresses of the UL facilities recognized by OSHA and included as part of the renewal request are:

- 1) UL Northbrook, 333 Pfingsten Road, Northbrook, Illinois 60062;
- 2) UL International Netherlands B.V., Westervoortsedijk 60, Arnhem, Netherlands 6827 AT;

II. Notice of Preliminary Findings

OSHA is providing notice that UL is applying for renewal of its recognition as a NRTL. This renewal covers UL's existing NRTL scope of recognition. OSHA evaluated

UL's application for renewal and preliminarily determined that UL can continue to meet the requirements prescribed by 29 CFR 1910.7 for recognition. Accordingly, OSHA is making a determination that it does not need to conduct an additional on-site review of UL's facilities based on its evaluations of UL's application and all other available information. This information includes OSHA's audits of UL's recognized NRTL sites during this recognition period, and the satisfactory resolution of non-conformances with the requirements of 29 CFR 1910.7. This preliminary finding does not constitute an interim or temporary approval of the request.

OSHA welcomes public comment as to whether UL meets the requirements of 29 CFR 1910.7 for renewal of their recognition as a NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. OSHA must receive the written request for an extension by the due date for comments. OSHA will limit any extension to 30 days unless the requester justifies a longer period. OSHA may deny a request for an extension if it is not adequately justified. To obtain or review copies of the publicly available information in UL's application and other pertinent documents (including exhibits), as well as all submitted comments, contact the Docket Office, Room N-3653, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address; these materials also are available online at <http://www.regulations.gov> under Docket No. OSHA-2009-0025.

The NRTL Program staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will make a recommendation to the Assistant Secretary on whether to grant UL's application for

renewal. The Assistant Secretary will make the final decision on granting the application and, in making this decision, may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of this final decision in the *Federal Register*.

III. Authority and Signature

Loren Sweatt, Principal Deputy Assistant Secretary of Labor for Occupational Safety and Health, U.S. Department of Labor, Washington, DC 20210, authorized the preparation of this notice. Accordingly, the agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 1-2012 (77 FR 3912, Jan. 25, 2012), and 29 CFR 1910.7.

Signed at Washington, DC, on July 7, 2020.

Loren Sweatt,
Principal Deputy Assistant Secretary of Labor for Occupational Safety and Health.
